# Xinru Wang

Email: xinruw@purdue.edu Phone: +1-765-409-0693 Website: xinruw.github.io

## Research Interests

Human-AI interaction, human computation, computational social science.

## EDUCATION

Purdue University

West Lafayette, IN, USA

Ph.D. in Computer Science, GPA: 3.90/4.00 Aug 2019 – present

Peking University

Beijing, China

B.S. in Psychology, GPA: 3.51/4.00 Sep 2016 – Jun 2019

Peking University

Beijing, China
B.S. in Intelligence Science and Technology, GPA: 3.65/4.00

Sep 2015 – Jun 2019

- Thesis: "Analysis of MOOC Forum Data towards AI Support"

## Publications

1. **Xinru Wang**, Ming Yin. Are Explanations Helpful? A Comparative Study of the Effects of Explanations in AI-Assisted Decision-Making. *The 26th ACM International Conference on Intelligent User Interfaces (IUI), College Station, TX, April 2021.* 

- 2. **Xinru Wang**, Ming Yin. Effects of Explanations in AI-Assisted Decision Making: Principles and Comparisons. *ACM Transactions on Interactive Intelligent Systems (TiiS)*, 2022 [Accepted conditionally]
- 3. **Xinru Wang**, Zhuoran Lu, Ming Yin. Will You Accept the AI Recommendation? Predicting Human Behavior in AI-Assisted Decision Making. *The Web Conference (WWW), Lyon, France, April 2022.*

### Research Experience

Research Assistant

### Purdue University | Department of Computer Science

West Lafayette, IN, USA Jun 2020 – present

- Title: The Effects of Explanations in AI-Assisted Decision-Making, Human Behavior Models in AI-Assisted Decision-Making, etc.
- Advisor: Ming Yin, Assistant Professor
- Conducted a randomized human-subject experiment to evaluate whether four types of model-agnostic
  explainable AI methods satisfy three desirable properties of ideal AI explanations on two types of
  decision-making tasks where people perceive themselves as having different levels of prior knowledge in.
- Proposed a space of three-component models (i.e. inference + utility + selection) that resemble human behavior in the setting of AI-assisted decision making.

#### University of Michigan | School of Information

Ann Arbor, MI, USA Jul 2018 – Sep 2018

Summer Research Intern

- Title: Modeling Bi-directional Trust in Semi-autonomous Vehicles for Improved System Performance
- Advisor: Lionel Robert, Associate Professor
- Extracted reaction time and eye-gaze monitoring data from a raw dataset.
- Analyzed data to investigate the correlation between trust behavior, trust, and secondary task performance of subjects. Implemented classic classification and regression methods on the dataset for trust modeling.

## WORK EXPERIENCE

### Kendall Square Capital | Technology Department

Machine Learning Intern

Beijing, China Jan 2019 – Apr 2019

 Extracted over 70 time-series features from the limit order book data, for prediction of mid-price movement in high frequency trading. Reduced mean squared error by 30% in the regression task.

## DiDi | Department of Smart Transportation

Beijing, China Sep 2018 – Jan 2019

Machine Learning Intern

- Extracted taking-order features for the drivers, then reduced the number of features according to F-scores.
   Implemented random under-sampling method to reduce imbalance between positive and negative samples in the dataset.
- Trained a XGBoost model whose AUC reaches 0.76 on the under-sampled dataset and 0.88 on the actual dataset.
- Completed data analysis for driver's waiting-time model on a hive dataset of million orders of magnitude.

# PATENTS

1. **X. Wang**, Y. Wang, and Z. Yu. "recommendation method for recipes based on deep learning". *CN107665254A*, *Feb. 2018* (In Chinese).

### TEACHING

• Teaching Assistant at Purdue University

Fall 2019 and Spring 2020

Python Programming (CS38001) Artificial Intelligence (CS471) Introduction to Data Science (CS242)

## SKILLS

# • **Programming Languages:** Python, SQL, MATLAB, C/C++, Java, HTML/CSS/JavaScript

• Toolkits: Pandas, Numpy, sklearn, Meteor

#### LANGUAGES

• English: GRE 162+170+3.5, TOEFL 111

• Chinese: Native speaker

• French: Fresh learner

#### SCHOLARSHIPS AND AWARDS

•	Academic Excellence Award, Peking University (top 15%)	2015 - 2016
•	May 4th Scholarship, Peking University	2015 - 2016
•	Academic Excellence Award, Peking University (top 10%)	2017 - 2018
•	Fei-Xun Scholarship, Peking University	2017 - 2018

## EXTRACURRICULAR ACTIVITIES

• Student Volunteer at ACM SIGIR Conference 2018

Jul 2018

• Member at Womens' Volleyball Team of EECS, Peking University

Sep 2016 – Aug 2017

Responsible for the organization of weekly training and the registration of important competitions.
